## BEST PRACTICES IN HYGIENE

Due to COVID-19 People are now more aware about the importance of hygiene and protection at home and work.

This allows us to have an easier conversation with all Tiers of management and end users to educate them about product differences and best value solutions to keep your team safe.

Remote workforces and Field service technicians need to be extra aware of the importance to maintain safe practices to prevent infection, transfer or contamination to others.

*It is time for informed discussions to ensure people use the right sanitiser, disinfectants, wipes and OHS, HSE, WHS processes at work and home.*

# FOR HOME & BUSINESS RELIABLE QUALITY HAND SANITISERS

- We partnered with leading Pharmaceutical Formulations Manufacturer to create the effective Alcohol based sanitiser gel and spray with the highest quality.
- TGA registered.
- Active Ingredients exceed WHO recommendations to kill 99.99% of germs.
- Gel Sanitiser contains 80% alcohol, Aloe Vera and Vitamin E to moisturise skin while killing bacteria.
- Spray Sanitiser contains 80% alcohol which is medical grade.
- Available in a range of sizes: 60ml, 100ml, 200ml, 500ml, 5L, IBC etc. Ideal for bulk purchase for sanitiser stations or by the carton for reception desks and corporate gifts.
- OEM Custom Brands labelling on demand, small and large quantities can be arranged.
- Custom bottling sizes and types also available.
- Reliable, regular supply, Australia-wide.

## ALCOHOL BASED SANITISERS

ACCURE ®

# AUSTRALIAN BIO-ETHANOL

Alcohol or Ethanol is the main ingredient in most hand sanitisers as it is great at killing germs and viruses quickly. But did you know that there are different types of alcohol. Chemically speaking, Bio-ethanol and Ethanol (or synthetic Ethanol) have exactly the same chemical compounds. The difference between the two lies with the method in which they have been made. Bio-ethanol is made from a by-product of sugarcane processing and is much greener alternative to Ethanol which is made from petrochemicals.

Our naturally derived Australian Bio-ethanol is made from Australian grown Sugarcane.

Sugarcane is a sustainable, hardy crop well suited to the tropical climate of Australia—far North and over 60% of Australian sugarcane is grown without irrigation. Once harvested the sugarcane is processed to create sugar, during the crystallization process Molasses is created as a by-product. Bio-ethanol is produced by fermenting this molasses, this is very similar to the process used to make beer and wine.

Once fermented the ethanol and water mixture is purified using a distillation process which separates the ethanol from the water and other impurities.

## COMMERCIAL BULK SUPPLY OF DISINFECTANT & SANITISERS & WIPES FOR EVERY BUSINESS AND WORKFORCE REQUIREMENT

- ✓ We Manufacturer in Australia to create a clean and effective alcohol and isopropanol-based disinfectants and sanitisers of the highest quality. TGA registered.
- ✓ Active Ingredients meet with consumer, business and medical grade requirements.
- ✓ ISOPROPANOL based formulation is ideal for Equipment cleaning with out the risk of degrading circuitry, screens, keyboards, control panels and regularly used touched surfaces.
- ✓ Ideal for bulk purchase for sanitizer stations.
- ✓ Foaming solutions available for schools and aged care facilities with Foam dispensing nozzles.
- ✓ Available in a bulk sizes and supplied in cartons or by the pallet in a range of container sizes including 5L, 20L, IBC
- ✓ Bulk Liquid can be multipurpose for cleaning while still being kind to hands for sanitizing
- ✓ OEM Custom Branding on demand small and large quantities can be arranged.
- ✓ Custom bottling sizes and types also available

# COMMERCIAL GRADE WIPES AND STATION REFILLS

## SANITISING WIPES

Ask us about refillable wipes systems. No more wasting money on plastic containers. Refill and save by buying in bulk.

Three different liquid solutions are available for the business requirement.

Equip your field and office teams with the means to clean equipment and their work environment and their hands safely.

Sanitiser Stations offer a reliable source of GEL, Liquid or Foaming formulations.

Buying in bulk and refilling each station and dispenser enables you to save money while provide the protection to your team.

Careful consideration should be given to the type of dispenser, location and fluid contents you need. Ask about the range.

This is a pedal dispenser made from steel for industrial sites. Galvanised for outdoors. Solid plate allows the device to be bolted into position.

## SANITISER STATIONS AND DISPENSERS

# AUTOMATIC SANITISER DISPENSERS

Gel / Foam

## TOUCHLESS AUTO DISPENSER

**SPEC 1:** Gel / Liquid Dispenser

**SPEC 2:** Foam Dispenser

With high precise PIR sensors technology, our foam soap dispenser fully automatically detects your hands in front of the sensor and quickly release just the right amount of foam soap within 0.2 seconds. Built in internal battery structure that helps to prevent the battery compartment from getting soaked in water or soap which causes corrosion and the soap dispenser fail to operate. It is Water-proof, Moisture-proof and Leak-proof to ensure a soap dispenser's long-term usage. Compatible with all kinds of liquid hand soap or dish soap, also works great with hand lotion or body lotion. Comes with a 300ml capacity re-fill tank. No need to refill frequently. One-button to switch on/off. You'll never have to touch a regular soap dispenser full of germs again which will help to keep your home and surroundings germ and bacteria free. Widely use for Family, office, School, Countertop, Decorative Home, Restroom, Toilet, Hotel, Clear Chamber, Deck Mounted, Restaurant, Coffee Bar, Bathroom, Kitchen and more.

ACCURE<sup>®</sup>

**SAFE FACE SHIELDS** Available in Box of 5.

Light  
Weight

Easy to  
Clean

Full  
Protection

No Harmful  
Material

Made from transparent PVC material, the raised nasal attachment gives ample separation between the nose and face which can be worn comfortably with or without prescription eye glasses or sunglasses. Elongated Curved-shape design allows for maximum coverage and protection from particle droplets, spray, splatter, saliva, wind, smoke and debris. This One-size-fits-all replaceable and reusable visor with glass attachment is a practical and portable protective solution. The visor can be cleaned after every use with soap and water, or wiped with disinfectant (recommended).

- **One size fits all**
- **Simple clean design**
- **More effective than wearing a face mask alone**
- **Used by teachers, chefs, estheticians, airline travellers and many more**
